

FASTFRAMES

EMBROIDER WHERE YOU HAVE NEVER EMBROIDERED BEFORE

Fast Frames hat hoops are a simple way to embroider on hats. Setup is very quick, with only two knobs to fasten.

Fast Frames Single Frame Hat Hoop

Fast Frames Hat Hoop Add-On

The hoops are available in two styles (pictured above): the first style (the Single Frame Hat Hoop) features a pre-assembled wing on each side allowing you to place it directly into your machine; the second style (the Hat Hoop Add-On) is more in line with our regular windows allowing you to place the hoop onto a regular Fast Frames arm.

These hoops have been designed with durability and simplicity in mind. They are very straightforward to use. With precision laser-cut straight edge and handy centering helpers you will be able to align your hats with ease. The large 5 1/2" by 6" sew field ensures you will never run out of room to embroider.
