# Unnamed

Key Block (13/100 actual size)

## Cutting Diagrams

A technical drawing of a corner. A thick black line forms the top and left sides of a square. A diagonal line runs from the bottom-left corner to the top-right corner. A thin grey line is drawn parallel to the diagonal, slightly below it. The letter 'B' is centered in the upper-left quadrant of the square. The drawing is enclosed in a thin black border, with a dashed line extending to the right and bottom edges.

B
