About

Stadler Form[®]
OF SWITZERLAND

Making life colorful and enjoyable is the goal and endeavor of us all. This also includes designer items of practical use: This is our guiding principle!

Many household appliances are important and useful occupants of our homes – however often the ugly ducklings of the family. That's why we came up with the idea to import attractive household products.

Each of the items we import are unique products of Swiss design by the company Stadler Form[®]. Founded in 1998, Stadler Form focuses on making household appliances emotionally appealing. Inspire yourself and enjoy the selection we made for you!

JERRY

This is the world's smallest Travel Humidifier. At only 0.4lbs Jerry is very light weight and an ideal companion for travel, keeping your dry hotel room at a pleasant and healthy humidity. Jerry can also be used wherever you need a small but still powerful personal humidifier: in your office, kid's room or any other small space. Just add your own water bottle, plug the unit in and enjoy clean, moist air. Jerry includes a transcontinental AC adapter and exchangeable plugs which allows Jerry to be used throughout North America, Europe and Asia. Fits most standard PET bottles (max. 17 oz).

Specifications

Rated power: 16 Watt / Automatic shut-off / Weight: 0.4lbs

Dimensions: 4.3"W x 1.9"H x 2.5"D

For personal use

AQUILA – small but BIG

Searching for a small but still powerful humidifier? Check out Aquila, the little BIG humidifier. Small in its dimensions, it comes with all the comforts of the large Ultrasonics. It is perfect for bedrooms, offices and smaller rooms up to 220 square feet - including a demineralization cartridge to avoid white dust. And the patented Ionic Silver Cube™, inhibiting the growth of mold bacteria. Beautifully illuminated.

Specifications

Rated power: 25 Watt

Output max. 1 gallon per day / Tank capacity: 0.8 gallon

Dimensions: 9.2"W x 9.7"H x 4.7"D

Automatic shut-off / Weight : 2.4 lbs

Room size: up to 250 sq ft

All rights for technical modifications are reserved.

ANTON – a humidifier with taste

Small in stature, but huge in performance – that's Anton! Even if it is easily overlooked because of its diminutive size, rooms of up to 250 sq ft pose no challenge to Anton. He is an ultrasonic humidifier made of resistant materials and even capable of perfectly distributing the fragrance of your preferred scented oil throughout the room. Equipped with an anti-calcium cartridge and Ionic Silver Cube™, Anton will not leave the white powdery film produced by other humidifiers and keep the water clean and pure. Elegance and easy operation are maintained by control buttons located out of sight on the underside. Easy readability of the water level is indicated by the stylishly designed LED indicator lights which switch from blue to red when the tank is empty.

Specifications

Rated power: 18 Watt / Indefinite variable output level
Output max. 1 gallon per day / Tank capacity: 0.8 gallon
Dimensions: 5.7"W x 11.2"H x 7.3"D
Night mode / Automatic shut-off / Perfume dispenser (aromastream technology) / Weight : 4.0 lbs
Room size: up to 250 sq ft

HERA

Do you want to have a two gallon humidifier which looks slim and modern? Here you are! Hera is our new high-end Tower Ultrasonic Humidifier with fantastic performance. Warm and cool mist, fully automatic mode with built in hygrostat, adjustable output with bidirectional nozzle, night mode for a restful sleep, continuous mode for ongoing humidification. This top of the line unit is equipped with a powerful demineralization cartridge to help prevent the release of minerals in the air and is also equipped with the patented Ionic Silver Cube™ to keep the water free from mold and bacteria. Swiss design, Swiss engineering, Swiss technology. Hera sets the bar.

Specifications:

Rated power: 33 Watt (preheating: 113W) / 3 output levels

Output max. 3 gallons per day / Tank capacity 2 gallons

Dimensions: 7.8"W x 14.5"H x 10.5"D

Night mode / Automatic shut –off / Integrated hygrostat

Weight: 10.5 lbs / Room size up to 760 sq ft

All rights for technical modifications are reserved.

WILLIAM – the Masterpiece

William plays in the highest league of craftsmanship and beauty. A stylish Ultrasonic humidifier – equipped with all that is possible in modern engineering. It covers large rooms up to 860 square feet. He is extremely quiet and powerful, but still low in power consumption. Nothing can compare to this black beauty.

Further important features make William a powerful and ideal companion: off timer, preheating (enhanced mist distribution), sleep mode (with dimmed lights) and turnable mist diffuser with fine mist selection. And the patented Ionic Silver Cube™, inhibiting the growth of mold bacteria.

Specifications

Rated power: 40 Watt (preheating: 125W) / 3 output levels

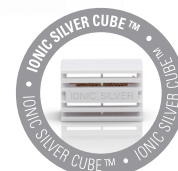

Output max. 3.5 gallons per day / Tank capacity: 1.5 gallon

Dimensions: 9.1"W x 12.2"H x 6.3"D

Night mode / Automatic shut-off / Integrated hygrostat

Weight : 7.3 lbs / Room size: up to 860 sq ft

FRED gets up steam!

When it gets colder outside, we heat our homes: the relative humidity falls. We, our furniture, plants and furnishings all suffer in this dry environment. To counteract this FRED gets up steam – making us feel comfortable again.

FRED is clean – because the steam is free of minerals and bacteria. FRED stands steady with metal plated feet and shuts-off automatically (triple security) when the water reservoir is empty.

Specifications

Rated power: 150 Watt (low), 300 Watt (high)

Output: 2 gallons per day (high)

Ceramic coated heating element / Integrated hygrostat

Dimensions: 14.3" W x 10.5" H x 14.3" D

Room size: up to 440 sq ft

Weight: 7.0 lbs

OSKAR – the Economist!

When rooms should bear optimal humidity with the least possible energy consumption, Oskar is the one to call in! He's a full-power economist for ideal room climates thanks to an integrated hygrostat that supports exact humidification. His automatic off action when the tank is empty is unique in his class and reduces energy consumption even further. Practically silent and invisible when you lie dormant, Oskar is an accommodating fellow – with LED control lights that can be dimmed to night-mode. In order to secure the very best of wellness, Oskar has a fragrance dispenser to distribute your favorite fragrance!

Specifications

Rated power: 6 to 16 Watt / Fragrance dispenser / 2 output levels

Output: max. 1.9 gallons per day / Tank capacity: 0.8 gallon

Dimensions: 11.4" W x 9.7" H x 9.7" D

Night mode (dimnable LED lights) / Automatic shut-off

Integrated hygrostat / Weight: 6.8 lbs

Room size: up to 500 sq ft

OSKAR big – the Economist!

Oskar the economist now has a big brother! Thanks to its unique V4 filter technology, the powerful humidifier is the ideal choice for large rooms up to 650 sq ft. With his 1.5 gallon water tank, Oskar big is one of the largest in his class. The memo function reminds you to replace the filter and, thanks to the night mode, he works almost unnoticed. With his maximum power consumption of 32 W, he is a great economist!

Specifications

Rated power: 8 to 32 Watt

Output: max. 3.5 gallons per day / Tank capacity 1.5 gallon

Dimensions: 18.6" W x 11.5" H x 7.9" D

4 output levels / Automatic shut-off / Night mode / Filter change reminder /

Water level window / Fragrance dispenser / Sound level 25-46 dB /

Integrated hygrostat / Weight: 8.6 lbs

HIGH PERFORMANCE

TOM – the airwasher

Washing and humidifying the air is Tom's specialty! Large rotating discs inside are designed to filter up to 50% of small to medium-sized particles out of the air, while at the same time boasting a humidifying capacity of max. 3.5 gallon per day. If Tom should run out of water despite his sizeable 1.5 gallon tank, he will automatically shut off to reduce power consumption (although at 19 W he is already conservative). Tom's self-cleaning mode is unparalleled: There is no need for cumbersome disassembly. Simply turn on the "extra cleaning cycle"! Since Tom is a very thorough chap, his special pre-filters will also filter larger particles such as household dust and hair out of the air.

Specifications

Rated power: 19 Watt / 4 output levels

Output max. 3.5 gallons per day / Tank capacity: 1.5 gallon

Dimensions: 14.9"W x 18.1"H x 8.9"D

Night mode / Automatic shut-off / Integrated hygrosat

Timer / Weight 19.4 lbs / Room size: up to 1'000 sq ft

JASMINE adds fragrance!

A noticeably subtle fragrance but still a discreet appearance – that's Jasmine. Like a simple bowl, she gently releases your favourite fragrance, at 20-minute intervals if you wish – and throughout the day! Using ultrasonic technology, she transforms the water blended with essential oil into an extra fine mist and dispenses it into the surroundings. Jasmine, for rooms full of well-being.

Specifications

Rated power: 7.2 Watt

Dimensions: 5.2" W x 3.95" H x 5.2" D

Interval function (10 min on, 20 min off) / Runs approx. 24 hours with one filling (interval mode) / Automatic Shut off / Rubber coating / Sound level: 26 db / Weight 0.9 lbs

All rights for technical modifications are reserved.

HIGH EFFICIENCY

Take a deep breath with VIKTOR!

Air in rooms is often burdened by fine dust, pollen and unpleasant odors as well as viruses and bacteria. But Viktor filters all this through a specially developed washable HPP Filter System™ (International patent application pending), thus permitting you to take a deep breath of fresh air! Small –and yet great in his own way – Viktor clearly demonstrates what clean air is all about with top CADR values (Clean Air Delivery Rate). The special filter cleanses the air while active carbon eliminates unpleasant odors. And with five capacity stages (extremely quiet to powerful) and dimmable night-mode LED control lights, VIKTOR will always be a fine companion!

Specifications

Rated power: 12 to 38 Watt / HPP Filter System™ / Prefilter / Activated carbon filter / Night mode (dimmable LED lights)

Fragrance dispenser / 5 cleaning levels (very silent to powerful)

Dimensions: 7.7" W x 17.7" H x 9.7" D

Weight: 10.8 lbs / Very high cleaning efficiency of machine: up to 99.99% (electronic filter!)

All rights for technical modifications are reserved.

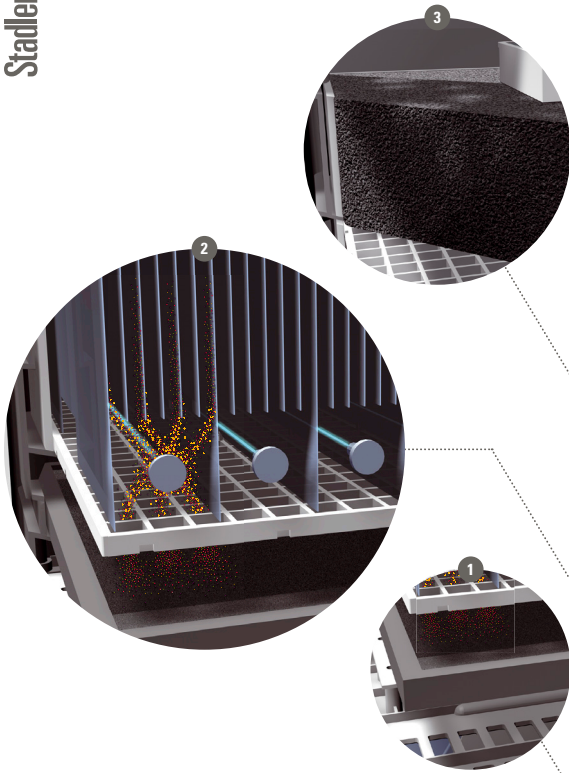

Accessories see page 40

Design by Matti

1: Preliminary filter

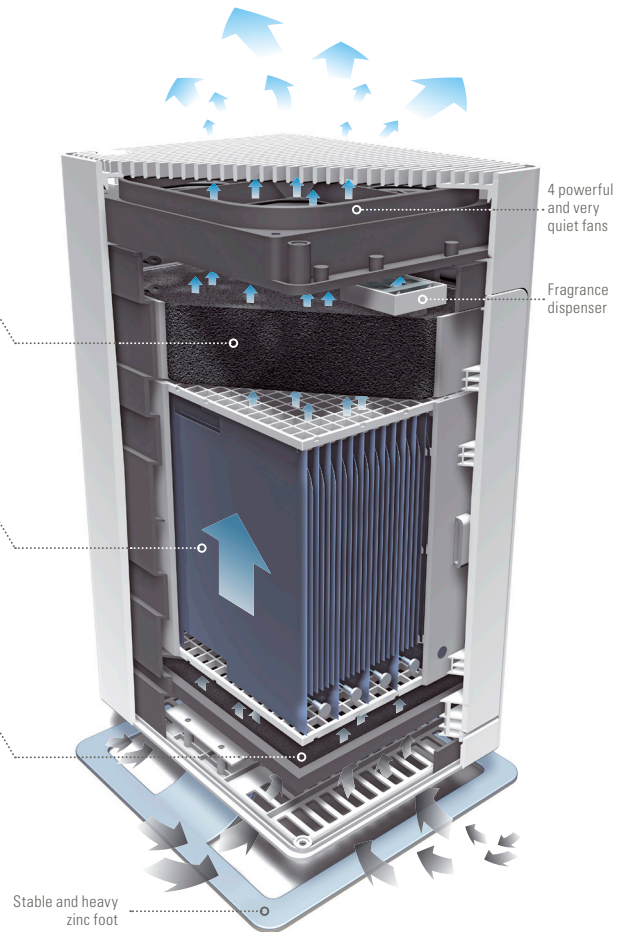

A preliminary filter retains large particles, such as pet hair, pollen and dust. This way the successive filters are protected against large objects and their function is optimized.

2: HPP™ (High Potential Particle filter system)

The efficient HPP™ filter retains fine dust, pollen, soot particles, viruses and mould spores. Particles are trapped through numerous very powerful magnetic fields. The HPP™ filter is washable and does not generate additional costs.

3: Filter with activated carbon

The large and powerful activated carbon filter with its cavernous surface adsorbs most gases and odors from the air. This way unpleasant smells (fish, cheese, smoke, etc.) can be filtered from the air.

Retains fine dust from tobacco smoke

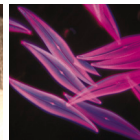

Retains soot particles from traffic

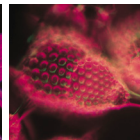

Retains soot particles from industry

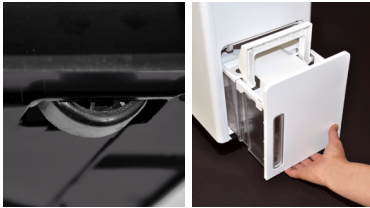

Adsorbs smells from cheese and cooking

Kills viruses and bacteria

Removes pollen and dust mites

Wheels for easy transportation

Tank with automatic handle

White

ALBERT – dries out!

Where humid rooms are a nightmare, Albert feels right at home! On the ground floor or in the basement, in the house by the water or even in the laundry, Albert is an efficient dehumidifier: the swing function of the air diffuser ensures optimal air distribution, particularly helpful for dehumidifying a large room. Albert also features a unique 24 hour timer that lets you select the desired on- and off-time to the minute, and therefore benefit from different electricity rates.

Specifications

Rated power: 340 Watt / 3 speed levels

Capacity per day: 17.6 pints / 2.64 Gallons

Dimensions: 138" W x 259" H x 99" D

Digital hygostat / Full 24 h timer / Swing mode / Night mode / Wheels for easy transportation / Automatic shut off / Hose for constant drainage / Defrost sensor and function / 3 speed levels / Sound level: 33 - 44 dB / Weight 35 lbs / Room size max: 650 sq ft

ANNA – is hot!

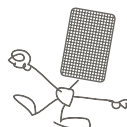

Anna raises the temperature! Not just because of her hot looks, but mainly because this wonderful little heater is equipped with a modern PTC ceramic heating element. Anna heats discreetly and quietly with two power levels, bringing agreeable warmth. But the clever heater also stands for safety in two respects: no overheating thanks to the PTC heating element (self-regulating ceramic) and automatic shut-off thanks to integrated tilt protection. If additional warmth is needed in certain places (e.g. under the desk) or in a small space, Anna Little is also «hot» enough.

Specifications

Anna: Power: 800, 1500 Watt / Dimensions: 5.75" x 14.45" x 3.74"
(width x height x depth) / Weight: 4.3 lbs / very slim housing

Anna Little: Power: 700, 1200 Watt / Dimensions: 5.75" x 9.29" x 3.74"
(width x height x depth) / Weight: 3.3 lbs / very slim housing

MAX turns up the heat!

MAX's heating elements warm the air, which is then blown quietly into the room, creating an agreeable temperature. MAX heats during the transition period, when the main heating is not running – MAX warms the feet in a cold office – MAX makes cold rooms toasty.

MAX is versatile! MAX blows cold air or hot air with 750 or 1,500 watt power output. The desired temperature is infinitely adjustable. Thermal overload protection fitted.

Specifications

Rated power: 750, 1,500 Watt

Dimensions: 11.4" W x 14.6" H x 10.6" D

Weight: 6.2 lbs

All rights for technical modifications are reserved.

OTTO makes wind!

When heat builds up indoors in summer, the slightest breath of wind is welcome: Otto helps with a gentle breeze or generates a gale! Thanks to the adjustable industrial fan, the air circulation can easily be varied.

Otto is a straightforward chap with height-adjustable feet. Otto is in tune with nature! The frame is made of formed bamboo (ecological) and oiled twice.

Specifications

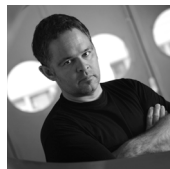

Rated power: 45 Watt, Sound level: 32 - 48 dB

Wind volume: 65,000 cu.ft. (max.)

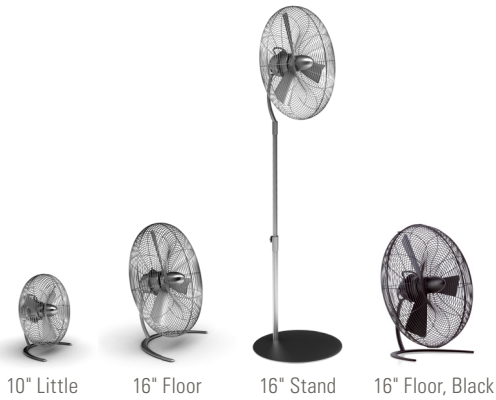

Dimensions: 13.7" W x 14.8" H x 7.2 D

Weight: 9.4 lbs / 3 speed levels

All rights for technical modifications are reserved.

Design by Carlo Borer

CHARLY takes off!

With a design resembling a jet aircraft turbine and an air-moving performance to match: three aluminum blades allow this fan to circulate up to 54,000 (little) or 81,000 (floor/stand) cu.ft. of air per hour. Thanks to his rounded, die-cast zinc base, CHARLY remains firmly anchored on the ground, while being adjustable in angle. The air circulation rate can be set to one of three levels.

CHARLY is one tough customer, made exclusively of metal: zinc, aluminum and coated steel.

Specifications

Little: Rated power: 30 Watt / Sound level: 28 - 40 dB

Dimensions: 11.4" W x 11.8" H x 7.2" D

Weight: 4.6 lbs

Floor: Rated power: 60 Watt / Sound level: 31 - 45 dB

Dimensions: 18.1" W x 19.7" H x 9.1" D

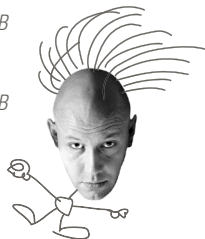

Weight: 9.0 lbs

Stand: Rated power: 60 Watt / Sound level: 31 - 45 dB

Dimensions: 18.9" W x 55.5" H x 10.8" D

Weight: 15.2 lbs

All rights for technical modifications are reserved.

Accessories

Ionic Silver Cube™

The Ionic Silver Cube's patented Swiss technology keeps the water clean in humidifiers. It works in Ultrasonics, evaporators and airwashers. Releases permanent silver ions to the water. Lasts up to one year (12 months). Fits most humidifiers.

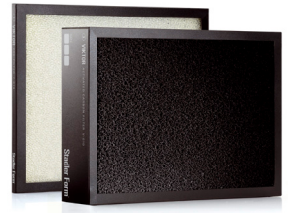

Cartridge

The powerful ion exchanger in the Cartridge removes calcification in the water to prevent white dust often created by Ultrasonic systems. It lasts up to three months, depending on the water's hardness. Suitable for most ultrasonic humidifiers with a standard tank cover.

Filter Cassette

The Filter Cassette is made from antibacterial treated paper for use in evaporator system such as Oskar. It transports the water to be naturally evaporated into the air. Replacement of the filter cassette is recommended every two months. No cleaning required.

Viktor Filter Pack

The Prefilter and Activated Carbon Filter for the Viktor Air Purifier (50g activated carbon) will eliminate unwanted odors and smells. It lasts up to six months, depending on the air quality.
