

Mix & Match Quilting

by Anita Goodesign™

At this years embroidery party we have been stitching one of these flowers in class. The project goes along with a contest of which group can be the most creative. I am always amazed at what our attendees stuff into their flowers. We decided to create not only 20 free standing flowers but 20 quilt blocks to go with them. Each flower uses assorted confetti to match the color of the flower, the end result is truly beautiful, you will love creating these designs.
