

SewQuiet 5000

Brushless DC Servomotor

Electrical	110V – 60hz
H.P.	3/4
Power	600W
Power consumption	3.5 amps
Speed control	Digital
Pulley type	Aluminum
Pulley size	#90
On-off switch	Built-in
Accessories	Treadle rod mounting hardware, belt guard,
Dimensions	11" x 7" x 8.5"
Weight – net	9.8 lb – 4.5 kg
Shipping dimensions	14" x 11.5" x 10.5"
Shipping weight	13 lb – 6 kg
Country of origin	China
Warranty	Limited 1 year

NO CLUTCH, NO BRUSH

The SewQuiet 5000 brushless DC servomotor is designed to operate all light to heavy-duty industrial sewing machines. It uses our high energy efficiency EcoIntelligent circuitry to reduce the motors carbon footprint by as much as 75%.

QUIET OPERATION

With the SewQuiet 5000, the noise that is normally associated with sewing motors (clutch and servo) is almost entirely eliminated, creating a more pleasant work environment.

FEATURES

- 600W power
- More torque than conventional clutch or servomotors
- Up to 75% energy savings
- Digital speed control
- Regular and reverse directions
- Fused overload protection (2)
- Instruction manual with speed settings included

Smart. Professional. Reliable. Since 1955.
