

# model 920

These photos show the 920 in the NEW Sunset Cherry color. You can see in the open image, that the new color is both inside AND outside. An image of the cabinet closed also shows you how compact it folds away.

The 920 is designed by sewing professionals and offers a large sewing cabinet with lots of sewing surface that is affordable, well built with built-in drawers for organization.

An *optional* drop-leaf (#917) is available for this model as well as a machine insert to allow the bed of the machine to sit flush with the surface.

# model 1050

Mahogany Clove is the new color in which you see this 1050. That beautiful rich color is now inside as well as outside. You can see in the open image that the cabinet has a compact design that provides an uncluttered work-space.

This model is similar to the Model 1000 except that the cabinet is wider to accommodate the new larger sewing and embroidery machines. Even more compact than our other models, it still has room to sew and serge with plenty of storage space. The serger shelf hooks onto a partially closed door for necessary support and stability. An *optional* back drop-leaf (#817) is available to add more surface area and an *optional* machine insert is needed to allow the bed of the sewing machine to be flush with the surface of the cabinet.

The 1050Q, pictured on page 7 in our catalog, is exactly like this model, only it has a larger quilting drop-leaf behind the cabinet for additional surface area and fabric support. Still need more surface area? Add the *optional* Quilter's Extension (#1570) to the front of either the 1050 or 1050Q to provide more support while quilting or sewing heavy or bulky fabrics.

# model 1520

Over 18 square feet of surface area makes the 1520 one of our most popular models. Shown here in our new Sunset Cherry color, you can see how beautiful—and functional—the cabinet is.

Not only is the color new but so is the style, we have redesigned the support gate-leg to provide sturdier support for even the heaviest quilts and bulkiest fabrics and now it matches the wood cabinet color.

Add the *optional* Quilter's Extension (#1570) to the front (not pictured) and now you have well over 20 square feet in which you can sew, quilt, and create! This is perfect to quilt large quilts, sew drapes, home décor, and other large projects. Adjust the size of the cabinet by choosing to fold down the back or side extensions.
