JANOME

The Easiest Threading System You've Ever Seen

Upper needle threading is color coded, easy to see, and smooth. But it's the lower looper that will really make you smile. It's the easiest ever! Simply pull the thread through, push the looper closed, and you're ready to stitch.

Quick Reference Chart
 Located on the front of the machine for easy access, this full color reference guide helps you adjust for a soft or tighter stitch without consulting the manual. The chart clearly displays available stitches, and shows the tension settings for both soft and tighter seams.

Free Arm Configuration

Finish sleeves, cuffs, waistbands and other hard-to-reach seams faster and with better handling.

Extra Large Bed Space with Easy Access

The largest sewing space available anywhere: 4" x 5.5" (100mm x 143mm). Such generous space means you can actually make a cover stitch in the middle of a garment.

Seam Tightening System (STS)

Janome's exclusive Seam Tightening System™ employs a spring instead of the looper thread tension dial to reduce slack in the looper thread. This allows for a tight, flat, and sturdy stitch on thick fabrics, and a looser stitch on fabrics that require more flexibility.
