

Tool Bars

MAIN MENU BAR – This provides access to most of the commands that control the main functions of Creative Drawings. Click on the menu (i.e. File, Edit, View, etc.) to see the drop down menu commands.

ALIGN TOOL BAR

DRAW-STITCH BAR

Draw Stitch

Using this toolbar, you can toggle between the design modes. Creative Drawings software has two important working modes – Draw and Stitch. We can design anything we like in the **Draw** mode and convert the design into the **Stitch** mode. The **Draw** mode is mainly for creating and editing the artwork. In the **Stitch** mode you can convert the artwork to stitches and make the final adjustments. Different controls and options are available in any of the two modes.

TOOL OPTIONS

This will open when your design is selected and you have "options" to change.

OBJECT PROPERTIES

The object properties box will open up when you have a design selected in the work area.

DESIGN INFORMATION

This information can be found in the lower left hand corner of the screen. You can see the width, height, amount of colors used, stitches, etc. of the design you are working on.

Items:3 Width : 3.55 " Height : 3.13 " Colors : 3 Est. Stitches: 3100
