**STEAM IRON CLEANER CERTIFICATE OF  
SHELF-LIFE and DATE OF MANUFACTURE**

**Shelf-Life**

Whink Products Company defines **shelf life** as the time period in which a chemical substance or blended preparation is chemically and physically stable. The majorities of our products are derived from synthetic materials and have virtually indefinite physical and chemical stability. **If stored indoors in an unopened condition between 0°C (32°F) and 54°C (130°F), the following items have indefinite shelf life\* (no “expiration date”).**

However, we recommend using the product within 5-years from the date of manufacture.

**Date of Manufacture**

Whink Products Company uses the following system to identify the date of manufacture (the location may vary on different lots):

Indicated on each shipping case and bottle by standard ten-character code (abbbccccc)

a – 1 digit year; (e.g. 9 = 2009)

bbb – the three-digit Julian calendar date (001-365, 366 for Leap Years)

cccc – unique batch and location code for manufacture

Prepared By: Manufacturer's Technical Services Department
